Feb. 9 '04	M&C	MCPS property on Stonestreet	CPDS	At the 1/24/05 meeting with the neighborhood association leadership, MCPS presented a site plan with 128 units. The community reiterated that density greater than 8 du/ac (98 units) but less than 10 du/ac would not be considered, without appropriate amenities such as a pocket park. Although MCPS offered to deed the former Lincoln High School to the City, this was not viewed as a viable amenity, especially due to impacts on the existing church operating in the building. After answering citizen questions, MCPS stated that they would push for this plan as part of the implementation plan, and would continue working on amenities. They also offered to meet with an Executive Committee of the civic association as progress is made.

Dear Mr. Sherwood:

The City of Rockville would like to extend our appreciation to Pogo Tree Experts for graciously installing our annual holiday lights on the Norway spruce tree at the entrance of Rockville Civic Center Park. The tradition of lighting the spruce tree during the holiday season began more than ten years ago. Since then, the tree has grown to the point that our equipment no longer reaches the upper section of the tree. Thankfully, Pogo Tree Experts provided the equipment and personnel needed to accomplish this and the tradition continued.

Please pass along our gratitude to everyone involved in this project. Thanks to your efforts, Rockville residents and visitors to the Civic Center were once again able to enjoy lights on the tree. Your assistance is greatly appreciated and we hope you will be willing to help us again next year.

If you need to contact me, please call me at 240-314-8702.

Again, thanks.

Sincerely,
